Driven technologist and aspiring Software Engineer with eight years' managerial experience. Four years at an electronic medical records software company, where I served hundreds of medical clinics as their Strategic Account Manager. Have a B.A. in Mathematics and a Certificate in Full Stack Web Development from The University of Texas at Austin.

EXPERIENCE

eClinicalWorks – Austin, Texas   **Dec 2014 – Feb 2019**
Team Lead / Strategic Account Manager
- Led Account Management and Project Management teams to implement large-scale infrastructure changes across Accountable Care Organizations and Hospitals
- Elicited details from healthcare professionals about automating processes via software functional enhancements and relayed specifications to software development teams
- Used JIRA to review status of development tasks and drive progress forward to ensure timely delivery of high-priority bug fixes
- Recommended strategies to optimize clinical efficiency and productivity
- Ensured smooth implementation and product adoption for customers using electronic medical records and practice management solutions

Aruss Inc. - Austin, Texas   **Jan 2008 – June 2014**
Supervisor / Surety Representative
- Managed team of 10 people, delegating duties to conduct operations efficiently
- Developed marketing plans to reduce operating cost
- Increased client-contract completion rate by upgrading company marketing communications and strategies
- Created training procedures that boosted the abilities of those representing the company
- Edited and maintained website to improve language use and esthetics

SKILLS
- Web development: JavaScript, jQuery, Git, Node, React, Express, MySQL 5, Mongo DB
- Knowledge of Wireshark, TCP/IP, Network Security, DNS, SMTP
- Leadership: Team-oriented, Problem-Solver, Critical thinker, Adaptive, Reliable

EDUCATION

The University of Texas at Austin   **Austin, TX**
